IEEE Milestone Proposal: First Generation and Proof of Electromagnetic Waves 1886-1888

Dear Ladies and Gentlemen,

I readily agree with and support the nomination and proposal by the KIT Professors Dieter A. Mlynski and Werner Wiesbeck for the IEEE Historic Milestone First Generation and Proof of Electromagnetic Waves 1886-1888 by Heinrich Hertz in Karlsruhe. The KIT shall reimburse the IEEE Germany Section for the cost of the plaque.

Moreover, acting for the State of Baden-Württemberg I give the permission to place the IEEE Milestone Plaque on the KIT Campus next to the Heinrich Hertz Auditorium.

Best regards

Dr. Ulrich Breuer
