Operating Fund Assets:	Total restricted fund reserves		

Note: By agreements dated February 28, 1958, the Founders' Agreement of August 10, 1916, between the four Founder Societies, parties thereto, and United Engineering Trustees, Inc., was superseded by an amended Founders' Agreement which, among other things, provided: for the admission of a fifth Founder Society; for commitments by each of the five Societies to permanently maintain their respective principal offices in the United Engineering Center Building to be erected at United Nations Plaza; for recognition of advances paid to United Engineering Trustees, Inc., namely \$265,000 by each of the four Societies pursuant to the superseded Founders' Agreement of 1916, and \$50,000 by the fifth

Society; and that none of said advances were to be repayable by United Engineering Trustees, Inc., except upon its dissolution but that each advance was to bear interest at 4% from the dates of occupancy of United Engineering Center by each of the respective Societies.

Pursuant to the foregoing, the Institute has reduced the book value of its Founder's interest in United Engineering Trustees, Inc., from \$498,448, being one fourth of the book value of the latter's West 38th Street property funds, to the amount of its stipulated advance of \$265,000 as aforesaid.
