Wendell Kelley % Illinois Power Co

To the Delegates to
the 1956 Conference of AIEE
Officers and Section Delegates

Gentlemen:

If you are not the delegate of your Section, please forward
this letter to him and notify Headquarters of his name immediately.

Each Section is entitled to one official delegate at the Conference of Officers and Section Delegates to be held in Parlors AEB of the Mark Hopkins Hotel, San Francisco as a part of the 1956 Summer and Pacific General Meeting on Tuesday June 26, beginning at 9:30 A.M.

Travel allowance is provided for each delegate at the rate of 13¢/mile for the first eight hundred miles and 10¢/mile for the remainder of the distance, one way. Vouchers will be distributed at the Conference.

No agenda will be distributed this year. The meeting will be conducted by the "group dynamics" plan. Come prepared to raise questions of interest to your Section and to participate actively in the conference. If possible plan to attend the Annual Meeting on Monday afternoon. Hear the officers reports and meet the new President, Vice-Presidents, and Directors.

Cordially yours,

N. S. Hibshman

Secretary

Dear Dan:

I was happy to learn that you would be able to represent Central Illinois Section at the Section Delegates Meeting in San Francisco.

I am enclosing the information that I have on this meeting and have contacted Walter Marquardt to send direct to you the summary of the past year's activities.

I hope that you have an enjoyable trip and probably at the first meeting of the Section this fall, we will want you to make a short report to the Section.

Yours very truly,

W. J. Kelley,
Chairman.

Memo outlining situation for discussion at A. I. E. E. Delegates Meeting in San Francisco, June 1956.

1. Washington Section has about 84 members at the National Bureau of Standards. We also have about 700 members in the various Government Bureaus.
2. The Federal Trade Commission recently handed down a decision regarding ADX2 and the newspapers published a definitely biased interpretation of a part of the report. This account was not too complementary to the Bureau of Standards.
3. Should we, the Washington Section, write a letter to the newspapers calling attention to the incomplete story as presented to the public, or

Should we keep quiet about the situation because we might get the Bureau in more trouble, or

Should we demand a complete reprint of the entire decision in the offending newspaper, or

Should we come out flatly and say to the newspapers that they are being unfair.

4. What is your opinion as to what we should do?

Memo outlining situation for discussion at A. I. E. E. Delegates Meeting in San Francisco, June 1956.

tech groups - setup as course work

1. Washington Section has about 84 members at the National Bureau. We also have about 700 members in the various Government Bureaus.

2. The Federal Trade Commission recently handed down a decision regarding ADXs and the newspapers published a definitely biased interpretation of a part of the report. This account was not too complimentary to the Bureau of Standards.

Small section - Have discussion groups that may vary in subject material from year to year. Draw leadership from the reg members.

3. Should we keep quiet about the situation because we might get the Bureau in more trouble, or should we demand complete reprint of the entire decision in the offending newspaper, or

Large section - Separate organization

Should we come out flatly and say to the newspapers that they are being unfair.

Stress Tech. Disc. Groups

Don't worry about general meetings so much. Cut them down if necessary - spend the money there.
