Re: IEEE Milestone in Electrical Engineering and Computing

This letter acknowledges that Toshiba agrees with the proposal to nominate T1100 as an IEEE Milestone in Electrical Engineering and Computing on its pioneering contribution.

Toshiba would be proud to accept Milestone Award plaque and to mount it in the museum area in the Ome Complex which T1100 was developed and its mass production was performed. The plaque would be placed with the plaque for IEEE Milestone Award "Toshiba T1100, a pioneering contribution to the development of laptop PC, 1985"

Sincerely,

Nobuyuki Nanno

General Manager
Ome Complex
Digital Products & Services Company
Toshiba Corporation
