Dear Mr. Metcalfe

How about my usual two
clippings from your February issue
p. 123. Sorry to trouble you, but it
is quite important for me to have
my files complete for future reference.

I notice that these little pills
of mine in your Journal, are attracting
attention + seem to interest others.

If you are tired of them let me
know, & I will not bother you with them.

Thanking you for past courtesies

Yrs truly
Carl Hering

My dear Dr. Hering:

We are enclosing your two clippings from
the February Journal and trust that they will serve your
purpose.

Very sincerely yours
