Dear Mr Metcalf.

Enclosed please find the matter of which I wrote you and may I ask that according to your letter of Dec 13th 1927 you prepare such a Bi. sketch as seems proper, and I shall appreciate it very much if you submit the rough draft to me for my constructive criticism

I appreciate very much that my Biography is desired and I am anxious as a very early ^(life?) member who has served for years on the Council or Vice Pres + as manager + upon many committees, Congresses etc of the A. I. E. E that record should be a credit to all concerned.

If I can be of further service in the matter please advise me.

Very truly yours

W. J. Hammer
