Dear sir:

I note in the recent IEEE newsletter that our north Jersey section was formed fifty years ago.

Since I was the first chairman, and with the help of MacRae and Morrision of Bell Labs we were able to secure use of the new Murray Hill auditorium for our meetings .

We also used the ITT auditorium in Nutley and the Westinghouse auditorium in Bloomfield for our meetings .

I have been a member of IRE and later IEEE for over sixty years and was made fellow in 1969 .

Please contact me .if you need help with the early history of our section.

Sincerely,

Jerry B Minter

President . Components Corporation
