My Dear Sir:

I send you by  
mail tonight, a copy  
of a new publication  
entitled "Primer of Electricity  
No. 0.-25" This work is intended  
to scoop in a long felt want  
and misinform all who  
may be beguiled into reading it.  
Knowing that a razor is  
proof against all such, I  
am very much displeased to  
hand you the book with the  
compliments of "His ribs the Electric Pen"  
Clarence C. Stamp
