Dr. Carl Hering,
1317 Spruce Street,
Philadelphia, Pa.

Dear Dr. Hering:

I beg to acknowledge your letter in regard to a short filler which will be released on the appearance of the JOURNAL for May, May 1st.

I also notice that your Midwinter Convention paper has been translated into French and is bringing forth some foreign discussion. The Midwinter Convention discussion is being sorted out and gotten into shape as rapidly as possible and we hope to have galley proofs ready for you before many weeks.

Very truly yours,

E D I T O R

GRM/me

Dear Mr. Metcalfe,

Accept my thanks for those extra copies of that filler of mine. I am very glad to have these. I assume it will be "released" on May 1st -

Yours truly
Carl Hering

Dear Mr Melcalpe

I return the proof just rec'd. It is correct except that you forgot the clause I sent you in a letter immediately following the copy. I have entered it in red ink. I am anxious to include this as it may save a discussion by a critic. I therefore hope it is not too late.

As I do not get reprints of this little note, & as I am anxious to have some, may I ask you to have about 20 galley proofs struck off for me for which I am willing to pay. It will answer my purpose to have them in the form of galley proofs, & the work on about 20 copies is so slight that it cannot cost much nor delay your make-up.

But please be sure to add that correction before these proofs are drawn.

It may interest you to know that my long paper in the Feb. issue has been translated into French & is being published in the leading French electrical journal, in its entirety, much to my surprise. I rec'd the proof to-day.

It is accompanied by a discussion by a French professor in which he praises it very highly, even tho he differs with me in parts. I would like to have had this discussion of his added to what you will publish, but I do not suppose this can be done as it was not a discussion sent to you.
