My dear Hutchinson: I am really very much obliged to you for the promptness with which you have sent me the A.D.S. list. It is another case of not knowing how useful attempts to you until you mix it and just where mine is at the moment. The Lord alone knows! There are several
men. I wanted to write to outside.
New York, and for such you don't
usually depend on an address
book. In the city, the telephone
directory is invaluable, but here it
doesn't go. So now the M&F list
"doubly valuable.
