

# American Institute of Electrical Engineers

WASHINGTON SECTION

## POTOMAC ELECTRIC POWER COMPANY AUDITORIUM

TENTH AND E STREETS, N. W.

**TUESDAY, APRIL 12, 1938**

**8:00 P.M.**

### ANNUAL STUDENTS' NIGHT

As a result of competitive elimination, students of the three nearby colleges have been awarded Student Memberships. The students who will present their papers to the Washington Section are:

1. ROBERT DIGGS, of the University of Maryland, who will discuss "Recent Developments in Electrical Engineering."
2. JOHN E. PARSONS, of George Washington University, whose paper is entitled, "Inductive Interference between Telephone and Power Circuits."
3. O. W. B. REED, JR., of Catholic University, who will talk about the "Cathode Ray Oscillograph."

Turn out and encourage these students. There is no competition between them as all have been awarded identical prizes by the Washington Section.

### TECHNICAL SESSIONS

There will be another Technical Session, sometime between the April and May meetings. The subject and date have not been announced, but you will receive a separate notice.

**SPECIAL DINNER**— Don't miss the dinner in honor of the speaker at:

**THE G. W. FACULTY CLUB**  
714 Twenty-first St., N. W.

6:30 P. M. **One Dollar** including cigars.

Make your reservations early with S. K. Brown, DEcatur 6080. Attendance is limited to 30.

(Plenty of Parking space available at 6 o'clock)

AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS
