Dear Global History Network:

On behalf of the University of California, I hereby give permission for permanent emplacement of a plaque commemorating the 1971 creation of the SPICE program. Placement will be in the entrance foyer of Cory Hall on the Berkeley campus. This is the building in which SPICE was developed.

My colleagues and I are delighted to participate in commemorating this historic development.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Spanos", with a stylized flourish extending from the end.

Costas Spanos, Chair
