## PowerPoint 7.0 Tutorials

On Thursday, June 10, 1999, the IEEE North Jersey Systems, Man and Cybernetics Society Chapter will host the first of several free tutorials and video-based demonstrations by Mike Liechenstein on the development and usage of computer-generated presentations.

### About the Talk

The lectures will progress in sophistication, using POWERPOINT®-7.0 as a vehicle. Attendees will learn how to use the built-in wizard to quickly develop presentations using standard defaults. The audience will also see how to completely customize presentations using progressively sophisticated utilities that allow for controlling the appearance of all text and graphics, attaching speaker outlines, slide/overhead annotations, handouts, and many inter-slide enhancements, such as lap dissolves, etc. The presentation assumes some familiarity with the WINDOWS © 98, NT, or MAC environments.

### All Welcome!

You need not be a member of IEEE to attend and there is no charge for admission. Light refreshments will be served.

### Times:

1st Tutorial – 7:00 PM, Thursday,  
June 10, 1999.  
2nd Tutorial – 7:00 PM, Thursday,  
July 8, 1999 (check date).

**Place:** Clifton Public Library, 292 Piaget Ave, Clifton, NJ, (973) 772-5500 for directions or see Newsletter web page.

### NJ PES/IAS:

## Energy Aggregation

On June 16, 1999 the IEEE North Jersey Power Engineering Society and Industrial Applications Society Chapters will host a presentation on "Energy Aggregation." The speaker will be Mr. Glenn Steiger, Vice President of Onsite Sycom.

### About the Talk

The recently adopted energy deregulation legislation will allow individual consumers the option to choose their energy provider. While existing regulated utilities will continue to own and maintain the distribution system, customers will have the ability to purchase energy and related services through a cooperative purchasing arrangement known as energy aggregation.

The speaker will review the concept of energy aggregation and its opportunity to reduce energy costs through volume purchasing and the matching of customer load profiles. The presentation will cover several aspects of load aggregation and the potential opportunities it offers municipal governments, residences, school systems and businesses.

**Time:** 7:00 PM, Wednesday, June 16, 1999.

**Place:** Dialogic, 1515 Route 10 (East bound from Route 202), Parsippany, NJ.
