

AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS

1.3.32

August 30, 1955

Chairmen of Sections, AIEE

Attached is a preprint of a paper "The Struggle for Unity" that will appear in the October issue of Electrical Engineering. This is being sent to you in advance of publication so that you will be informed about the article when it is read by your Section membership. You will recall that this substantially is the story I presented at the Section Delegates Conference at Swampscott. You may wish to review this paper with your Executive Committee.

If you have any comments I shall be pleased to receive them.
