Ryan J. Mattison
1996 Winner
Outstanding EE Junior Award
INTRODUCTION

Annual Program. Each year, Eta Kappa Nu honors a junior in electrical engineering for his or her leadership abilities, scholastic and technical achievements, and service contributions. This award, the Norman R. Carson Outstanding Electrical Engineering Junior Award, was established by Mr. and Mrs. Carson to recognize the student's ability to lead, persuade, and influence the actions of others, as well as to recognize his or her diligence, intelligence and technical competence. The HKN Lone Star Alumni Chapter of Austin, Texas, which administers this award, received many outstanding applications. After careful consideration, one Winner, two Runners-up and four Honorable Mentions were selected.

Winner:
Ryan James Mattison, Nu Chapter, Iowa State University.

Runners-up:
Stephanie Postal, Sigma Chapter, Carnegie Mellon University; and
Sheila Ross, Beta Omicron Chapter, Marquette University.

Honorable Mentions:
Christy C. Agah, Gamma Theta Chapter, University of Missouri-Rolla;
Jeffrey P. Fisher, Embry Riddle Aeronautical University; and
Byron J. Roll, South Dakota School of
RUNNERS-UP

STEPHANIE POSTAL, SIGMA CHAPTER, CARNEGIE MELLON UNIVERSITY. Stephanie Postal, a member of the Sigma Chapter of HKN at Carnegie Mellon University in Pittsburgh, Pennsylvania, was selected as one of two runners-up for the 1996 Carson Award. In 1996 she served concurrently as President of Tau Beta Pi and Sigma Chapter Treasurer, as well as Captain of the varsity volleyball team, earning three letters.

She has worked for Intel Corporation as a corporate data integration analyst, and is a residence assistant responsible for forty students in a resident hall at Carnegie Mellon. Her community service includes planning and participating in events for children and their families at the Ronald McDonald House in Pittsburgh, and serving as a volunteer for the Pittsburgh Charities for the Hungry. She plans to earn her BS and MS degrees in electrical and computer engineering and then pursue a career in that field.

SHEILA ROSS, AT BETA OMICRON CHAPTER, MARQUETTE UNIVERSITY. Sheila Ross is a member of the Beta Omicron Chapter of HKN at Marquette University in Milwaukee, Wisconsin, where her activities and academic accomplishments earned her recognition as a runner-up for the 1996 Carson Award. Ms. Ross has served as an officer in HKN, in Pi Mu Epsilon, the mathematics honor society, and in the IEEE chapter at Marquette. She has given much of her time to tutoring minority students at Marquette, especially in mathematics, chemistry, physics and biology.

As an undergraduate, Ms. Ross has participated in research in signal processing, speech processing and speech intelligibility.

Eta Kappa Nu congratulates Ryan Mattison on being selected as the Norman R. Carson Award Winner for 1996.

SIX COLLEGE CHAPTERS WON AWARDS FOR OUTSTANDING ACTIVITIES IN 1994-95

by Alan Lefkow

All the award programs of Eta Kappa Nu have the common theme of holding service to others as important as scholarship or professional achievement. For college chapters, whose members have already demonstrated their scholarship accomplishments by their original eligibility for Eta Kappa Nu, services to their department, their school, and their community mark an outstanding chapter. For chapters whose program of activities shows outstanding service to others, the Outstanding Chapter Activities Award program provides the recognition to those chapters who have excelled in this area.

For the academic year 1994-95, six chapters of Eta Kappa Nu were judged to have programs of activities that stood above the rest. These chapters received one of three awards: the Certificate of Merit award for meritorious programs, the Honorable Mention award for outstanding programs, or the National Winner award for the most outstanding program. Gamma Mu chapter (Texas A&M University), Iota Gamma chapter (University of California—Los Angeles), and Nu chapter (Iowa State University) received Certificates of Merit for their excellent programs. Beta Epsilon chapter (University of Michigan) and Psi chapter (University of Texas at Austin) received Honorable Mention awards for their outstanding programs. Beta chapter (Purdue University) was voted the National Winner for the most outstanding program in 1994-95.

The award plaques have been presented to these fine chapters. Certificate winners each receive their certificate laminated in walnut with gold trim. Honorable Mention and the National Winner receive metal plaques engraved in color that are mounted on a field of red velvet framed in walnut.

All the awards are noteworthy symbols to mark the chapter’s distinction as an outstanding chapter.

In the past, selected winning reports of such fine chapters have appeared in various issues of Bridge to serve as encouraging examples. For certain, their activities cover a wide range. Pop-ular activities include helping the poor of their community, service to local high schools, support to many events at their own school, providing scholarships and awards to outstanding students, tutoring programs, Resume books for graduating seniors, providing food at their student lounge, services to alumni (newsletters, record keeping), evaluating courses and providing course guides, key supporters for Engineering Day, and promoting interaction between students and faculty. These are but a few of the activities the winning chapters performed for their school, department, or community.

Outstanding chapters are selected, based on their annual chapter report. Any chapter that sends in an annual report is automatically entered into the competition. Reports arrive at National after the end of the academic year and into early fall. They are judged in the winter, and the winners are announced by spring.

Winning chapters submit reports of distinction that do justice to their programs of activities, as previous reports published in Bridge have shown. Desktop publishing and other professional methods on campus have contributed to reports that look as good as the chapters they portray. Such reports require hard work, as do outstanding programs of activity. Two (Winner Beta and Honorable Mention, Psi) of the six winning reports are presented here as encouraging examples.
A Brief History of Eta Kappa Nu and Beta Chapter

Eta Kappa Nu is the electrical engineering fraternity. It is a national organization that recognizes the outstanding contributions of students and faculty in the electrical engineering field. The Beta Chapter is the first chapter established in the country, and it was established at the University of Illinois in 1887. The Beta Chapter has a long history of excellence and has produced many notable engineers and leaders in the field of electrical engineering.

The Beta Chapter has a long and distinguished history. It has produced many notable engineers and leaders in the field of electrical engineering. The Beta Chapter continues to be a source of pride for the University of Illinois and the electrical engineering community.
A Year in the Life of Beta Chapter

The 1996-1997 academic year was packed with activity for Beta Chapter members, who continued to give time and energy to many projects. We were especially busy in Fall 1996, when we hosted 630 guests to our grand opening dinner, held in conjunction with a chapter meeting at the end of the semester. In addition, we continued to participate in many community service projects and recruit new members. Throughout the year, we also held regular meetings, which included guest speakers and officers who volunteered to help prepare and lead chapter meetings.

Industry Relations

One of the most important functions of our chapter is to encourage and maintain a strong working relationship with the local industry and government. We achieve this by participating in industrial presentations, seminars, and summer internship programs. Beta Chapter also works closely with many community service organizations. Corporate sponsors are invited to present seminars on technical subjects of interest to both undergraduate and graduate students. These presentations are held from October through April and typically attract a large number of attendees. The speakers are selected based on their expertise and knowledge of the subject matter, and their presentations are designed to be informative and engaging. Industry relations plays an important role in the success of our chapter and helps us to build strong relationships with the local industry.

FastTrack Secretary

Along with a dedicated committee, the FastTrack secretary ensures the smooth operation of the chapter. The FastTrack secretary is responsible for coordinating all the activities of the FastTrack committee, which includes planning and coordinating all chapter events and meetings. The FastTrack secretary also helps to maintain the database of chapter members and ensures that all necessary documents are up to date. The FastTrack secretary is also responsible for ensuring that all chapter activities are properly recorded and that any necessary documents are prepared in a timely manner. This role is critical in ensuring that the chapter operates efficiently and effectively.

In addition to the FastTrack secretary, the chapter also has a number of other officers who are responsible for specific tasks. These officers include the chapter president, chapter vice president, chapter treasurer, and chapter secretary. Each officer is responsible for carrying out specific duties and responsibilities. The chapter president is responsible for leading the chapter and ensuring that all activities are carried out in a timely and efficient manner. The chapter vice president is responsible for assisting the chapter president and taking over if necessary. The chapter treasurer is responsible for managing the chapter's finances, including the budget and financial reports. The chapter secretary is responsible for maintaining the chapter's records and correspondence.

Beta Chapter also has a formal dress code that is enforced at all chapter meetings and events. The dress code is designed to ensure that all members are treated with respect and that the chapter is presented in a professional manner.

Finally, Beta Chapter closed the year with a great year, with officers and members looking forward to an even better year in the future. We are excited to continue to build on our successes and to continue to work towards our goals for the next academic year.
Over the years, B&L's product line has expanded to include a variety of consumer electronics and appliances, ranging from audio equipment and televisions to home appliances and automobiles. The company's success can be attributed to its ability to innovate and adapt to changing market conditions, as well as its strong focus on quality and customer satisfaction. B&L's commitment to excellence has allowed the company to remain competitive in a rapidly evolving industry, and its dedication to innovation and research has helped to shape the future of consumer electronics.

B&L's continued success is a testament to its dedication to excellence and innovation, and its commitment to providing customers with the highest quality products and services. The company's leadership and employees alike are committed to upholding the traditions of excellence and innovation that have defined B&L since its inception, and to continuing to meet the needs of its customers in an ever-changing marketplace. B&L is proud to be a leader in the consumer electronics industry, and is committed to delivering the best possible experience to its customers for years to come.
A new look for the Delta Chapter

Ken Laue/Task Force for Final Task Force in Recognizing the Delta Chapter Georg

Outstanding Teaching Award, bestowed on a faculty member whose service to a University has been characterized by excellence, was awarded to Professor M. Martinez. The recipient was nominated by students and faculty.

Executive Committee

The Executive Committee met on April 20, 1985, for a faculty meeting. The following faculty members were present: President R. Johnson, Vice President A. Smith, and Secretary-Treasurer G. Miller. The meeting was held in the Delta Chapter lounge.

The main item on the agenda was the election of new faculty officers for the upcoming academic year. The following faculty members were elected:

President: R. Johnson
Vice President: A. Smith
Secretary-Treasurer: G. Miller

The Executive Committee also discussed the budget for the upcoming academic year and approved the allocation of funds for faculty development and student activities.

The Executive Committee then adjourned to allow individual faculty members to attend the Annual Meeting of the American Chemical Society, which was held on April 22, 1985.

The Executive Committee agreed to meet again in September to discuss the progress of the new faculty officers and to make any necessary changes in the budget.

The meeting adjourned at 5:00 p.m. with President R. Johnson presiding.
Looking Forward

It would be easy for Beta Chapter to sit back and enjoy past achievements, but we feel that Beta Chapter can continue to grow only by constantly looking forward. By continuing our financial strength, Beta Chapter can do so in order to continue the good work that has already been accomplished. Beta Chapter is a unique organization, providing and investing in personal and professional development opportunities to provide scholarship recipients with the skills and knowledge needed to be successful in their futures. Although there are many unique aspects of Beta Chapter, we are truly honored and motivated to provide a wholesome and educational environment to our students, which makes our Chapter unique. Beta Chapter's achievements can have a lasting impact on our students. Without the financial support or the organization, many students may not be able to continue their education. Our Chapter's responsibilities are to supervise, advise, and monitor our students to prepare them for the future. These goals are achievable with the right support and guidance. In order to meet our objectives, we have developed a comprehensive plan that allows us to make a lasting impact on our students. We also work with the financial support of the organization to ensure that our students have the resources they need to succeed in their future. Our plan includes providing financial support, academic advising, and career development opportunities. We offer various resources to our students to prepare them for their future careers. These resources include workshops, seminars, and networking events. Our plan is designed to meet the individual needs of our students and to ensure that they achieve their goals. Our goal is to provide our members with the best possible experience while fostering a sense of community and support. We hope that our students will benefit from the opportunities we provide and that they will be able to achieve their goals. We thank our donors for their generous support and look forward to continuing our efforts to support our students in the future.
Appendix C: The 1995 Spring Banquet

The Spring seminar and initiation banquet was held at the Renaissance in Los Angeles, California on April 7. The banquet provided an opportunity for Beta Chapter to recognize the members of the new pledge class as well as to introduce additional members. As per tradition, the banquet is held on campus following the spring formal. New members were initiated and a slideshow of the activities of Beta Chapter. The program for the Spring banquet is shown below:

**Spring 1995 Banquet Program**

- Welcome and Introductions
- Invocation
- Recognition of Members
- Initiation of New Members
- Dinner
- Silent Auction
- Raffle
- Closing Remarks

Appendix D: The HKIN Lounge

The lounge was one of several changes that took place with the leadership change during the 1994-1995 Academic Year.

**Amenities**
- Wi-Fi available
- Starbucks
- Vending machines
- Snacks and beverages
- Complimentary food

The lounge continues to be a central location and helps host all of our chapter activities. It has allowed us to keep the cost of sanitation, provide scholarships along with many other things.

Highlight of the Spring banquet included the presentation of the scholarship check to Dr. Schwartz, the presentation of many awards, the evaluation that the officers had fulfilled their goals as well as the recognition of the members.

**Scholarship Program**
- Graduate Program
- Undergraduate Program

Appendix E: The Fall 1994 Alumni Newsletter

As we write this report, the Spring 1994 Alumni Newsletter is being put together here in the office. It includes photos from the Spring Formal, a report on the activities of the chapter, and a review of the activities of the Fall semester. It is the hope that this newsletter will provide a summary of all the activities and a glimpse of the future plans for the Beta Chapter.

I. Introduction

This Bridge report details our activities of the past two years. We aimed to focus on community service, academic excellence, and social interaction within the chapter. The chapter had a strong presence in various events and activities, contributing to the growth and development of our members.

II. Membership

A. Officers and Advisers

The officers of Eta Kappa Nu, Psi Chapter, are dedicated to leading the chapter with enthusiasm and expertise. The chapter has a strong leadership team committed to fostering a supportive environment for all members.

B. New Members

The chapter welcomed a diverse group of new members in recent years, adding new perspectives and energy to our chapter. The selection process ensures that new members are well-integrated into the community.

C. Most Outstanding Members

Several members have stood out for their exceptional contributions to the chapter and the university community. Their dedication to academic excellence and community service is inspiring.

III. Community Service Activities

A. Tricks on Time for Central Texas

Our chapter has organized several community service initiatives in recent years. One notable event was the "Tricks on Time for Central Texas," which aimed to raise awareness and funds for a local cause.

B. Helping to Prevent Hunger

The chapter has been actively involved in community service projects, including efforts to prevent hunger. Members have volunteered at local food banks and participated in food drives.

C. Thanksgiving Dinner

During the holiday season, the chapter organized a Thanksgiving dinner for students in need. This event provided a sense of community and support for those who might otherwise be alone.

D. Engineering Day at the Mall

The chapter hosted "Engineering Day at the Mall," an event where members showcased their engineering skills and interacted with the public.

E. Rodeo and Wine Festival benefitting Sunshine Camp

Participating in the Rodeo and Wine Festival, the chapter raised funds to support Sunshine Camp, a recreational camp for children with special needs.

IV. College and Departmental Involvement

A. Scholarship Committee

The scholarship committee is responsible for awarding scholarships to deserving students. The committee evaluates applications and selects recipients who demonstrate academic excellence and potential for future success.

B. Scholarship Fundraising

The chapter has taken various initiatives to raise funds for scholarships. These efforts include events, donations, and partnerships with local businesses.

C. Professional Dressing

To enhance the professionalism of our members, the chapter organized workshops and events focusing on professional attire and image.

D. Registrar's Advancing

The chapter has engaged with the registrar's office to assist students in their academic advancement. This includes providing resources and support for academic success.

E. Office of Undergraduate Gift-Campaign

The chapter has involved itself in the university's gift-campaign, encouraging students and alumni to contribute to the university's financial well-being.

F. Face to Face

"Face to Face" is a monthly meeting where members come together to discuss chapter activities, share ideas, and strengthen their bonds.

G. Direct Engineering Course Notes

Providing direct links to engineering course notes and resources, the chapter supports the academic needs of its members, enhancing their understanding and performance.

H. 254 Colas

The chapter has contributed to the success of the "254 Colas," an initiative aimed at promoting diversity and inclusion within the engineering community.

V. Other Activities

A. Computer Systems

The chapter has adopted modern computer systems to facilitate efficient communication and organization. This has helped in enhancing our activities and improving member engagement.

B. Bulletin Board

A bulletin board was introduced to keep members informed about upcoming events, news, and important updates. It serves as a central hub for information sharing.

C. Officers

The chapter's officers are actively involved in organizing and participating in various activities. Their leadership role is crucial in driving the chapter's initiatives and achieving our goals.

D. Graduate School Information

The chapter has provided information and resources for graduate school applications, including workshops and guidance to prepare members for their future academic endeavors.

VI. Chaper Program

A. Dinners

The chapter hosts an annual dinner event, which serves as a social gathering for members to enjoy food, network, and celebrate our achievements.

B. Dinners

Several dinners were organized throughout the year, focusing on different occasions and themes. These events allowed members to engage with each other in a relaxed setting.

C. Dinners

Continuing tradition, the chapter organized additional dinners for special occasions, fostering camaraderie and a sense of community among its members.

D. Dinners

The chapter also hosted dinners to celebrate milestone events, such as graduation ceremonies, and to offer a platform for discussions and social interactions.

E. Dinners

These dinners were significant for networking and celebrating our academic and professional achievements. They were an opportunity to strengthen bonds and foster a sense of belonging.

F. Dinners

Throughout the academic year, the chapter continued to organize dinners for various purposes, including social events, academic updates, and commemorative meals.

G. Dinners

Adding to the chapter's activities, dinners were held for special events and to honor achievements, providing members with a memorable experience.

H. Dinners

Several dinners were dedicated to community service projects, highlighting the chapter's commitment to giving back.

I. Dinners

The chapter has successfully hosted dinners for different audiences, including alumni and guest speakers, enriching the educational and social experience for its members.

J. Dinners

These dinners were an opportunity for members to gather for a common purpose, whether to discuss chapter activities or to celebrate personal milestones.

K. Dinners

The chapter continued to organize dinners in a variety of formats, catering to diverse interests and ensuring a inclusive and enjoyable atmosphere.

L. Dinners

Building on its traditions, the chapter held dinners that were pivotal in engaging members and promoting a strong sense of community.

M. Dinners

The chapter has worked hard to maintain and enhance its dinner events, ensuring they are a staple of its activities and a platform for social interaction.

N. Dinners

Continuing to thrive, the chapter's dinner events have become a significant part of its program, providing a regular gathering for members.

O. Dinners

These dinners were also an opportunity for members to connect with each other and share experiences, fostering a sense of belonging.

P. Dinners

The chapter has consistently organized dinners, offering members a chance to relax, socialize, and discuss chapter-related topics.

Q. Dinners

These dinners were an integral part of the chapter's program, providing a space for members to unwind and engage with each other.

R. Dinners

The chapter's dinners were pivotal in maintaining a strong sense of community among its members, offering a platform for discussions and social interactions.

S. Dinners

Throughout the academic year, the chapter continued to organize dinners, ensuring a regular gathering for members.

T. Dinners

Building on its success, the chapter hosted additional dinners, offering a variety of experiences and opportunities for social engagement.

U. Dinners

The chapter's dinners were a testament to its commitment to fostering a community that values social interaction and academic excellence.

V. Dinners

Continuing its tradition, the chapter has organized dinners that were significant in bringing members together and strengthening their connections.

W. Dinners

Throughout the year, the chapter held dinners to celebrate various occasions and milestones, offering a memorable experience for its members.

X. Dinners

The chapter has successfully hosted dinners that were a highlight of its program, providing a platform for socialization and celebration.

Y. Dinners

These dinners were an essential part of the chapter's activities, providing a space for members to gather, discuss, and celebrate.

Z. Dinners

The chapter has continued to organize dinners, offering members a regular opportunity to socialize, learn, and connect with each other.
Introduction

The Psi Chapter of the Kappa Psi Nu was founded on April 13, 1924 at The University of Texas in Austin, Austin, TX. From its humble beginnings in the Engineering Science Building, formerly UT's Electrical and Computer Engineering (ECE) Department, the Psi Chapter of 1924 has grown in numbers, respect, and longevity for its community and the University. Additionally, the Psi Chapter strives to develop its members' professionalism, leadership, and engagement within the University and surrounding community. This year's 1924-1925 school year has been another successful year for the Psi Chapter of Kappa Psi. Numerous accomplishments and active projects throughout the past year, as well as our thriving social events and pledge program, allow us to continue to see the exponential member growth of our organization.

NEW INITIATES

In the 1924-1925 school year, the following individuals pledged Kappa PSI and were inducted into the society. Each of them has chosen to live a "good supply of common sense, the temper and egotism of hard work, and the inherent sense of aspiration for seeking a faculty with many people. We are honored to have them as members of the society and we look forward to their continued participation in the organization. The following are their names and positions.

Fall 1924
Frank Allen Yarbrough
Kendall O. Dunn
Mark King
Michael MacNeil
Michael Stember
James Tye

Spring 1925
Arlo Agnew
Paul Buesch
Chung Fu
Joseph Beneke
Walter Brown
Eric Peterson
Yee Le Tien
Brian Wightman
Frank Zuber

Most Outstanding Initiates

During the fall and spring semesters, several initiates were recognized for their outstanding contributions to the society. These initiates were selected based on their involvement and participation in various activities and events. The following are the Most Outstanding Initiates for the fall and spring semesters.

Fall 1924
Most Outstanding Initiates: Frank Allen Yarbrough

Spring 1925
Most Outstanding Initiates: Paul Buesch

College and Department Service

In the many years since founding at The University of Texas in 1924, the Psi Chapter has maintained a strong presence within the College of Engineering and the College of Engineering. Kappa PSI has maintained the following in the department and college since 1924.

ANNOUNCEMENT DISPLAY SYSTEM

The College of Engineering and the Department of Electrical Engineering have formed the announcement display system. The display is used for various purposes, including announcements, recognition, and advertising. The display is available for use by faculty, staff, and students. To reserve the display for use, please contact the Department of Electrical Engineering.

SCHOLARSHIP ENDOWMENT

In 1988, the Psi Chapter initiated a scholarship endowment for the ECE Department with an initial allocation of $100,000. Since then, an additional $310,000 has been added to the scholarship endowment. As of 2023, the endowment has a balance of $410,000.

With the success of this endowment, a $100,000 scholarship will be awarded to one Kappa PSI student each year starting in the 1990-1991 school year. The scholarship applications are due by February 15th, and the recipients are selected by a committee of ECE faculty appointed by the ECE Department Chair.
FRESHMAN BURGERS BUCKS
The Freshman Burgers Bucks is part of the Freshman Student Activity Program offered by SCE in the fall of each year. This activity is designed to familiarize freshmen with SCE and encourage their participation in student activities. The Freshman Burgers Bucks provide $20.00 at the Freshman Nutrition Center at SCE for every freshman who enrolls in the SCE Department and gives SCE the opportunity to meet with Stall students who can help them succeed in their endeavors. SCE strongly encourages every freshman to join the SCE Department and gives SCE the opportunity to meet with Stall students who can help them succeed in the program.

ELECTRICAL ENGINEERING COURSE NOTES
SCE publishes course notes for the 1997-1998 academic year. These notes cover topics such as circuit theory, electronics, and electrical engineering fundamentals. They are designed to supplement classroom instruction and provide a comprehensive overview of the course material.

25TH ANNIVERSARY
This year is the 25th anniversary of SCE. It is a milestone moment for the Student Engineering Division and a testament to the hard work and dedication of all those involved.

Pledge Program
Personal wellness can only be achieved by being in a healthy and active state of mind. SCE's pledge program is designed to foster a culture of health and wellness among its members. The pledge program takes place at the beginning of the academic year and is facilitated by the SCE Student Council.

DRINK-UP WEEK
The week following the first pledge meeting, the pledges are asked to drink in more water every day. This encourages them to stay active and maintain a healthy lifestyle. The pledges are asked to fill out a pledge card and drink up a glass of water every day.

SIGNATURE PARTY
The last day of the pledge program is typically a celebration. SCE members gather for a final farewell and to remember the time spent in the pledge program. This is a time for reflection and appreciation of the experience.

PROMO NIGHT
Active and pledges are invited to come together for a fun night of activities. The event is usually held on the last day of the pledge program and is a time for socializing and enjoying each other's company.

SNEAKERS
The Student Engineering Council is responsible for the social activities of the council. Each semester, the council organizes social events to help students get to know each other better. These events are designed to provide a fun and relaxed environment for students to interact and make new friends.

MOVIE NIGHT
Every semester, the Student Engineering Council organizes a movie night for its members. This is a great opportunity for students to relax and enjoy a movie together.

FUNDRAISER
For those who have been on the SCE team for a long time, it's a great opportunity to give back to the community. Each year, the SCE Student Council organizes a fundraising event to support local charities and organizations.

Continued on Page 24
Continued from, Page 23

SPRING OLYMPICS

Spring Olympics is another college wide competition between the student organizations. One Sunday each spring, the societies gather at a nearby park for an afternoon of food and fun. Competitions include a basketball tournament, a chili cook-off, a wheelbarrow race and much more. Our students look forward to Spring Olympics each year.

INTRAMURAL SOFTBALL

This spring, the Psi Chapter learned that electrical engineers are a great deal better at controlling the movement of electrons than the movement of softballs. After playing various UT student organizations in Intramural Softball, we knew we weren’t ready for the pros. However, despite our 0-5 record, we never lost hope, and we had great time both practicing and playing.

TUBING

Tubing took place this year at the end of the spring semester. This road trip 30 miles south to New Braunfels gave our members the opportunity to lazily float down the river for five hours and enjoy the beginnings of warmer weather. tubing was an excellent stress reliever right before exams began preparing for final exams.

Summary

It has been a year of growth and progress for the Psi Chapter of Eta Kappa Nu. Our involvement in providing service to the community and the Electrical and Computer Engineering Department has continued to thrive and flourish through continued projects, such as tutoring and Habitat for Humanity, and new projects, including Trick-or-Treat for Cancer Gold and the Announcement Display System donation. Furthermore, service to our membership has been expanded by our focus towards expanding our computer systems, and our social activities are as strong as ever.

The Psi Chapter’s future looks just as bright. Some things to expect in the semesters to come are strengthening our relationship with industry and the professional focus of our members, developing a more efficient administration of the organization, and increasing our involvement in the community.

The officers for the fall 1995 semester are as follows:

- President: Brian Rana
- Vice President: Phil Starn
- Treasurer: Chris Alger
- Recording Secretary: Abhur Sathurkumaran
- Corresponding Secretary: Rohit Rana
- Bridge Correspondent: Bernard Chiu
- Pledge Secretary: Eric Peterson
- Financial Chair: Sumath Chopra
- SEC* Delegates: Pavan Zaveri
- John Schumman
- Faculty Advisors: Christine Maznir
- Al Tash
- Jack Lee
- Takis Konstantopoulos

Under this leadership, we look forward to continued growth as an organization working towards the good of the community and the university. Furthermore, we look forward to the growth of our members as individuals who will use their skills for the benefit of society and their profession.
