Pompano Beach, Fla.  
February 26, 1968.

Dear Nelson,

I do not know whether IEE and British IRE are talking about merger but I doubt it very much. Not so long ago that IRE had a rather militant Secretary I believe and he did not help toward such a result. Don Fink might be up to date on it. Director Williams would know.

Reed Crone has sent me several papers which I have not yet read.

March 27, 1961 I wrote Scott Hill advising that Haggerty is to take the place of Fink as the IRE Chairman of the joint group considering matters of common interest. (Hill was the Chairman for AIEE).

Copy of Haggerty's Report to the Ex. Committee, of his meeting with Teare, report dated May 22, 1961. (4 pages)

Berkner write Chase June 8 indicating interest by Mervin Kelly, H. I. Romnes and telling about Hill's working on the student member problem.

Letter to Romnes from Berkner June 8.

You have copy of Crone's to me of Feb. 16 listing four items.

You will, of course, get these papers after I have absorbed them in the process of writing my story.

I'll be much interested in Haggerty's reply to your questionnaire.

Regards,

*Harold*
