Mr. George Bailey
The Institute of Radio Engineers
1 East 79 Street
New York 21, New York

Dear George:

As you know, if progress continues as scheduled toward consideration of consolidating the IRE and the AIEE we should be going to our members for a vote on the question in early April. Among the documents I would like to furnish to all members along with the ballot is a transcript of the parts of the Joint Committee panel discussion at the IRE Convention Monday morning, March 26 which add information to that which will already have been furnished the members via the pamphlet sent them with the March Proceedings. This means making a complete transcript of the panel^{discussion} and excerpting those portions which will prove useful. I think that the question and answer period particularly might be pertinent so that negative as well as positive comments and questions may be presented. Will you arrange for the taping and transcription?

In our last Board meeting Tom Jones suggested that we consider using wired TV from this particular meeting session to a number of different points in the exhibit halls at the Coliseum. I mentioned this to the 8-man committee Saturday, and they thought it an excellent notion. Would you let me know how expensive this would be, George, and what would be involved?

Much obliged.

Sincerely,

P. E. Haggerty
