

American Institute of Electrical Engineers *Central Illinois Section*

FEBRUARY MEETING

The program committee has arranged the February meeting with the Bussman Manufacturing Company for the presentation of "A Story of Complete Electrical Protection". The speaker will be Mr. Tim H. Bates, District Manager of the Davenport District for the Bussman Manufacturing Company. He received his degree in Electrical Engineering in 1950, having attended Northwestern State College in Louisiana, St. Mary's College in California, and the University of Nebraska. Prior to joining the Bussman Company he spent five and a half years as a Sales Engineer for the Westinghouse Electric Corporation.

Mr. Bates' program will include a demonstration and is entitled "A Story of Complete Electrical Protection". The following items will be covered:

1. Circuit protection
2. Motor protection, both singlephase and three phase
3. Protection of high interrupting capacity circuits
4. Protection of fluorescent lighting fixtures
5. Thermal protection for switches and panel boards
6. Protection of resistance welders
7. Protection of small appliances and television

THE PLACE: Utility Operators Fellowship Club
2nd Floor, 365 East Wood Street
DECATUR, Illinois

THE DATE: FEBRUARY 21, 1956

THE TIME: 7:30 P. M.

THE DEAL: Refreshments following meeting

YOU TOO CAN BRING A GUEST
