Sitting in THE Chair
Darrell Sabatka, Section Chair

The summer is fast coming to a close and its time to focus our volunteer time back on IEEE activities. The month of June was busy for many IEEE volunteers as the IEEE Board of Directors held their week-long meeting, June 15th through the 22nd. Several members of the local Section Executive Committee had the opportunity to attend some of the activities. Personally, I attended the Organizational Retreat on Friday, the Awards Ceremony on Sunday evening, and the Industry Relations Luncheon on Wednesday. The experience was very rewarding, an experience I will not forget.

Last May our Society Chapters Chair, Fred Jones, presented an excellent training session for chapter officers. The Section provides this training opportunity to help new chapter officers get started and also to identify areas where the Section can improve its service to the chapters. Thank you Fred for a job well done.

The Executive Committee is always looking for new volunteer leaders. One of the Section’s cornerstones is John Tary. John is a tremendous leader and an asset to the Denver Section and to Region 5. John would like to channel his energies into students and let others fill his present shoes (size 16EE). John will continue as Newsletter Editor through the end of the year. John will also stay active on the large conferences but the Section is looking for a rising star to fill the position of Conference Chair. If you like pizza and soft drinks, give me a call. I will send you the position responsibilities written into our charter or John Tary would be happy to visit with you personally. The perks that come with these positions are too numerous to mention here! These positions will help you build a huge professional network—you never know whose job might be on the block.

ATTENTION!
Something’s on fire in this column!

- The Fourth Annual Regional Symposium on Electromagnetic Compatibility, at NIST, Boulder on June 10, was an assortment of excellent papers. Bob German, Henry Ott Consultants, Boulder does a great job staging this symposium and has the grateful appreciation of the Denver Section.

- Steve Williams, Chief Application Engineer, Charles D. Jones Company was the winner of the IEEE Dictionary at the Rocky Mountain Technology Expo, May 4-5, Denver. Congratulations Steve.

- Computer Swap and Shop, at the Regency Hotel, 38th & I-25, dates are August 13, September 10, October 8 and November 12. For more information, contact Computer Alliance, 1515 S. Sheridan, Lakewood, CO 80232, (303) 727-8708

- We welcome James A. Nolan, President, Nolan Laboratories, Inc. to our list of advertisers. The very best of good wishes to you Mr. Nolan.

- The key to an engineer's career vitality is through life-long learning — both technical and non-technical — and is essential for engineers to remain competitive. This is one of several conclusions reached by approximately 100 participants from industry, government, academia and professional associations at “Industry 2000”, May 12-13, Denver the recent workshop on career vitality sponsored by the IEEE.

- For additional information on the Rocky Mountain Inventors and Entrepreneurs Congress (RMIC) please call Corny Snyder, (303) 322-7887.

- National Engineers Week 1995 will highlight engineering in everyday life. The 45th annual National Engineers Week, scheduled for February 19-25, 1995 is chaired by the American Institute of Chemical Engineers (AICheE). The theme for the week is "Engineers: Turning Ideas into Reality". For free planning kits, contact National Engineers Week, P.O. Box 1270, Evans City, PA 16033, (412) 772-0950.

- Radiation meeting to highlight measurement quality issues surrounding quality assurance of radiation measurements for manufacturing, environmental, medical and other industries will be the focus of the third annual meeting of the Council of Ionizing Radiation Measurements and Standards (CIRMS). The meeting is hosted by NIST, on Nov. 16-18, 1994 in Gaithersburg, Maryland. For information contact Bert Coursey at (301) 975-5584, FAX (301) 869-7682.

THE 1994 IEEE INDUSTRY APPLICATIONS SOCIETY 29TH ANNUAL MEETING
DENVER, COLORADO

The Denver Committee of the 1994 Industry Applications Society Annual Meeting welcomes you to this October event. We have planned an interesting and informative meeting. In addition, you can look forward to interesting industrial and partner tours.

The Sheraton Denver Tech Center Hotel is anxious for your visit and is continuing to improve their responsiveness. You should enjoy being at this hotel and you will enjoy the pool and the exercise room. Our auxiliary hotel is the Hyatt Regency at the Denver Tech Center. This hotel is about two blocks from the Sheraton.

This will be a business casual dress conference. This means that you are appropriately dressed without a tie for all functions except the President's Banquet where a coat and tie are recommended. Lady partners should dress appropriately for the functions in which they participate.

There are approximately 347 papers which will be presented and five tutorials. All of this will occur from Sunday through Thursday. Since Colorado is a beautiful state, we suggest that you arrive early on Saturday before the conference and stay until the following Sunday to enjoy the area.

The Partners will be busy with several optional trips to the mountains including Vail, Breckenridge, Georgetown, Estes Park and Rocky Mountain National Park. The Partners Program Chairperson, Linda Foley, has suggestions for partners who would rather remain closer to the Denver area. This information will be available at the conference.

There are several tours and optional tours with limited space availability. Please sign up early so that you won't miss these functions. It is always interesting to see other businesses and how they use electrical controls to manufacture efficiently.

This conference has many committee meetings and working sessions in addition to the two and seven additional technical sessions. Please plan your schedule early to enjoy as much of the conference as possible. This year, for the first time ever, there will be a welcoming session on Monday morning. Look forward to an exciting and unexpected speaker. Adding this speaker means the Monday morning sessions will begin slightly later than in previous conferences. Authors should prepare the evening before with their visuals and instructions from their session leaders.

Again, look forward to an informative and happy conference in Denver.

Paul Meisel - Conference Chairman
MagNeTe Incorporated
1834 Firmin Court
Louisville, Colorado 80027-1122

GENERAL INFORMATION

You are invited to attend the 29th Annual meeting of the IEEE Industry Applications Society in Denver at the Sheraton Denver Tech Center. This will be your opportunity to participate in technical committee meetings, hear technical papers by authors from around the world, learn about new concepts, and meet colleagues and friends. There will be many technical tours and social events for attendees and their partners. The Denver Section of IEEE and the 1994 Conference Committee extend a sincere invitation to each of you to join us in Denver. For any additional questions, please write or call.

Registration is a prerequisite for attendance at the technical programs, committee meetings and tutorials. The registration desk will be open for pre-registration on Saturday, October 1 from 1:00 p.m. until 7:00 p.m. and on Sunday, October 2 from 7:30 a.m. until 7:00 p.m.

Full conference registration provides the registrant with the conference record, admission to all technical programs, the Sunday evening reception, the conference breakfasts, the Awards Luncheon, and the President's Banquet on Wednesday evening.

Daily registration covers only the admission to the technical programs for the day of registration.

The conference record and tickets for other activities may be purchased separately. Life and Student members may attend all technical sessions and the Sunday evening reception free of charge.

For the convenience of the attendees, arrangements have been made to mail the conference record. Please include the registration desk for the cost and location of the mailer for the conference record.

Registration for technical tours and partner activities must be received with full payment by September 23, 1994. Individual tours are subject to cancellation if the minimum numbers of participants is not met by September 23. Such cancellations will result in full refunds. Refunds for any other reason will not be permitted. However, tour tickets are transferable to other attendee, tour registration, while at the conference, will be limited based on the space available.

Conference registration cancellations received by September 16, 1994 will be fully refunded. Cancellations received after September 16 will result in the cost of the conference record and mailing fees being deducted before the refund. No refunds will be made after September 23, 1994.

NIST is seeking applicants to serve on the 1995 board of examiners for the Malcolm Baldrige National Quality Award. In addition, quality experts from the health care and education communities are needed to participate in a pilot program. Deadline for examiner applications are due Nov. 1, 1994. Contact the Malcolm Baldrige National Quality Award Office, at (301) 975-2036, FAX (301) 948-3716.

For the past twenty years we have had the good fortune to be the Denver Section Conference Committee Chairman/Cochairman. Now we feel it is time to step aside and ask for a replacement. The position does offer diversity to a technical career. Where else in IEEE can you learn the basics of profit and loss, proposal writing, salesmanship, interaction with the business community and working with the great group of dedicated IEEE members. If interested call Darrell Sabatka, (330) 329-1547.

Positions Available

Quality Assurance and Instrumentation/Software
