Dear Nelson:

So far my search for additional material on the merger has come to naught. I looked in the attic and there was nothing there and the tapes have so far eluded me. I still have a suspicion that that there is something out in the files and next Saturday I will try to go through them quickly and make a final decision.

In the meantime, I came across this old IRE stuff which was certainly background for the data that Sandy and I plotted. For whatever use you can make of it, here it is.

Best to you both.

Sincerely,
