RE: IEEE Milestone in Electrical Engineering and Computing

This letter acknowledges that the Canadian Broadcasting Corporation agrees with the proposal by the IEEE Vancouver Section to nominate the CBC Vancouver TV transmitter as an IEEE Milestone in Electrical Engineering and Computing for the First television broadcast in Western Canada.

Should this nomination be accepted by the IEEE History Centre and the IEEE Board of Directors, the CBC agrees that a plaque commemorating this award can be mounted on the Transmitter building at Mount Seymour. As the CBC is a Crown Corporation we are expected to have wording on such plaques in both official languages. If the award is granted the CBC will provide the translation to French for the final wording.

Yours truly

A handwritten signature in red ink that reads "Dave Newbury". The signature is written in a cursive, flowing style.
