RE: Milestone Proposal "The First Breaking of Enigma by the Team of Polish Cipher Bureau, 1932-39".

With this letter we confirm full support of our Section to the initiative of establishing a Milestone devoted to „the first breaking of Enigma by the Team of Polish Cypher Bureau, 1932-1939”.

In connection with this proposal our Section has undertaken all necessary steps to ensure the support of local authorities in Warsaw and the agreement of the legal tenants of the property/building where the Milestone is intended to be placed.

We confirm also our intention to establish working collaboration needed for the execution of the necessary steps associated with installation of the plaque and local organization of the celebration event in case the proposal is accepted.

A handwritten signature in blue ink, appearing to read "Maciej Ogorzalek".

Prof. dr hab. inż. Maciej Ogorzałek
