

71 BROADWAY,
NEW YORK.

November 30, 1917

Mr. F. L. Hutchinson, Secretary
American Institute of Electrical Engineers
33 West 39th Street, New York City

Dear Sir:

Responding to your circular of November 1st for information regarding special technical qualifications of the membership of the Institute, I beg to say my experience is based in part on the record of executive and director positions in the companies enumerated on the enclosed statement.

I cannot very well adopt your schedule, and send this thinking it may suffice, adding that I have travelled extensively abroad, speak French, am not now in active business, and, as stated in the statement filed with you under date of February 15, 1917, have the following special qualifications:

"Life-long connection with large engineering works, as officer and director of corporations engaged in the construction and operation of railroads, power plants, water works, cables and telegraphs, machinery of all kinds, and particularly in banking operations in connection with engineering enterprises".

Very truly yours

Edward P. Adams

Enc.

EDWARD DEAN ADAMS

Office 71 Broadway, New York City
 City Home 455 Madison Avenue, New York City
 Country Home "Rohallion", Rumson, New Jersey
