Dear Nelson,

Reed misunderstood me. I mentioned that Ron told me he was to see you about 2 pm but I didn't intend to convey the idea that I was going to join you. I was looking for you in the morning only to ask if there was anything we should talk about. Not having seen the exhibits for two years I reserved Thursday afternoon for that.

I would have liked to have been with Ron and you but felt there was little I could add.

You are certainly digging. When you are through the shovel should be put on permanent display. de Forest's plea about radio advertising simply shows his instinctive lack of business judgement.

Haggerty's appearance bowled me over. He looks aged and worn. Two letters in two years past mentioned his hopes of continuing his trans-Atlantic racing "if health and other circumstances allow". Wonder if he has a health problem? I didn't have the nerve to ask him.

I think that I have received all the papers I will get so, one of these mornings, I'll try to write my part of the merger up for you. It will be sketchy and not extensive. The copy of the emblem article came the same day as your letter.

Best regards,

Haraden
