Dear Mr. Sadler:

* * *

Referring to your various letters on the matter of E. G. Constam, we have several times been in touch with representatives of the War Department in an effort to put the case of Mr. Constam before people who might take an interest in the matter. The most recent attempt was made by Mr. Levi on January 20 when he again submitted a rather full memorandum with extensive quotations from your previous communications on the subject. However in view of the fact that no affirmative action has as yet been taken, I assume we must conclude that we are not likely to get very far with our efforts on his behalf.

Sincerely yours,

/s/ James S. Martin
