VOL. 69, NO. 07

AUGUST 2023

## Message from the IEEE North Jersey Section Chair Prof. Hong Zhao

As August draws us towards the close of another beautiful summer, I hope this message finds you all in good health and high spirits. It has been a season of growth for our section. We have met the section's new member recruitment goal for the 2023 membership year. Congratulations to all of us!

As mentioned in the June/July newsletter about the summer picnic and membership development event, I am excited to announce that our summer picnic and membership development event is just around the corner. This event is scheduled for August 20, Sunday, from 12:00pm until 5:00pm, at Duke Island Park, Bridgewater, NJ 08807. We have an array of exciting activities planned, and of course, some delicious food and refreshments. It is the perfect occasion to unwind, share stories, and create lasting memories. I

encourage all of you to mark the date on your calendars and join us for a day of fun and companionship. Please make a registration at the following link: <https://events.vtools.ieee.org/m/365245>

Looking forward to seeing you on Sunday, August 20, 2023!

Best wishes,

*Hong Zhao, IEEE North Jersey Section Chair*

### What Inventors and Entrepreneurs do for Us

Let's remember and thank America's inventors and entrepreneurs for what they do for us. Here is a short list to help you get started in recognizing the importance of their efforts and long hours of labor amid many obstacles and roadblocks:

- Agents of change and economic growth
- Commercialize new products and services
- Drive down costs to consumers
- Create new jobs and industries
- Improve our standards of living
- Clean the environment
- Make things safer

VOL.69, NO. 07

AUGUST 2023

If you gave it some serious thought, you could probably double or triple the size of this list.

In pursuing answers to important questions and problems that need to be resolved, these creative folks lead their teams through the narrow, hazardous straits of product commercialization. Often the true joy of these efforts is the race to success itself. If you have ever tried to introduce something new either on your own or within a rigid corporate environment, you know the landmines and snares that await you.

You do not need to go far to find these invaluable inventors and entrepreneurs, for they are right here in our IEEE section. When you meet one or learn of their accomplishments, take the time to tell them how much you appreciate what they did. Even better yet tell school-age and college students what colleagues and friends you have in our section!

Talk to you again soon...

Harry

## 2023 Terra New Jersey STEM Fair,

### - A report by Chitra Venkatraman, IEEE Senior Member, North Jersey Section

IEEE Young Engineer awards were introduced at the virtual Nokia Bell Labs NJRSF in 2020 where a Judging team from our section awarded the first two awards. Our section continued to sponsor Engineering awards every year since then. This year, the primary fair sponsor was Terra STEM Fairs. Once again, our team of Judges made 2023 IEEE Young Engineer Award selection a grand success by choosing 7 projects (9 students total) from Engineering, Biomedical Engineering and Computer Science areas to receive certificates and gift cards.

In the past years, the awards were mailed or given at our annual banquet. This year, our members visited the schools to give the awards at events held at the school facilities.

Pre-U co-chair, Chitra Venkatraman coordinated the Judging and the school visits for each of the winning projects. The Pingry School, The Peddie School, Tenafly HS, Millburn HS, Edison HS and Middlesex Academy were all visited by Chitra and one other member of our section. Award winner from Bergen Catholic was awarded at a special ceremony held at NJIT during the SHE event as he did the project independently.

Our judging team included Dr. Ajay Poddar, Dr. Anisha Apte, Ratna Raj, Dr. Emad Farag, Dr. Misra, Henry Moher, all of North Jersey section and Poonam Gupta of Central Jersey section as well as others recruited from outside our section.

Thanks to Dr. Adriaan van Wijngaarden, Dr. Ajay Poddar, Dr. Anisha Apte, Dr. Naresh Chand and Dr. Shailaja Patil of IEEE, Pune, India for accompanying Chitra to the schools to present the awards and to Dr. Durga Misra for hosting the ceremony for the Bergen Catholic Student. On a special note, Dr. Shailaja Patil, represented the IEEE Pune Section, in line with the MoU signed between the two sections, in several events co-sponsored by North Jersey Section during her visit to USA, including the IEEE AP-S COPE activities.

Chitra also made a short presentation on Tryengineering.org features in some of the schools. Our visits were well received by the schools. Both Tenafly and Millburn high schools invited us to present our awards formally at their annual science research symposium. We also got to tour the engineering lab facilities of some of the schools.

The 2023 IEEE Young Engineer Award Winners are as follows:

- Ryon Rong and Curtis Zhou of Peddie School
- Divya Krishna of Edison HS
- Ryan Kwon of Bergen Catholic HS
- Charles Juang & Diego Pasini of Pingry School
- Zayn Rekhi of Millburn HS
- Kai Song of Tenafly HS
- Abhay Bhaskar of Middlesex Academy

**One-Day Summer Camp for Female High School Students: SHE in ECE” Event – 2023**

- *A Report by Prof. Durga Misra*

IEEE North Jersey Section in collaboration with IEEE Electron Device Society (EDS), IEEE Circuits and Systems Society CASS, IEEE AP-S COPE and Electrical and Computer Engineering Department at NJIT hosted a “One-Day Summer Camp for Female High School and Middle School Students” on NJIT campus on June 27, 2023. The focus of the event was to encourage female students to join engineering especially in electrical engineering and/or computer engineering. The program was organized from 8:30 AM to 3:30 PM. The theme was Soaring High-powered Excellence i.e., SHE in IEEE and SHE in Electrical and Computer Engineering (ECE).

More than 80 girls entering 7<sup>th</sup> to 12<sup>th</sup> grades from the local schools attended the event. The student group included many minority students. Students were welcomed by Prof. Durga Misra, Chapter in developing new technologies in high-tech industry and in space research and encouraged the young female students to be the leaders of the technology and innovation. He emphasized the role of IEEE such as Try Engineering programs and appreciated the financial support from the various IEEE Societies.

The opening remark was given by Ms. Marjorie Perry, CEO, and sole principal of MZM Construction. Ms. Perry inspired the girls to be engineers and mentioned how electrical engineers and computer engineers are leading the way from self-driving cars to communication using their mobile phones. She encouraged them to do well in the science and mathematics in school.

Following the opening keynote, a panel discussion was held. The panel consisted of women faculty members and industry leaders in engineering field. The faculty panelists were Prof. Ratna Raj of Elect & Comp Eng Department and Prof. Kerrielee Chintersingh, Chem & Materials Engineering. The industry panelists were, Ms. Chitra Venkatraman, retired Telecommunication Engineer from Nokia; Dr. Anisha Apte, Sr. Design Engineer at Synergy Microwave Corporation; and Dr. Charlotte Blair, Technical Manager, ANSYS and WIE Chair of IEEE Region 1; Ms. Carol Benitez, Vice President of Operations at Greener by Design and Ms. Amira Feknous, Strategic Teleport Partners at SES Satellites. The panel was moderated by Ms. Susan Gross, Vice Provost for Enrollment Management at NJIT. Most of the panel members talked about their high school days and explained how they selected their career as an engineer, especially an electrical engineer. They advised the students how they can think about selecting their career. The panelists told the students to be strong and brave as a female electrical engineer because female engineers make highly positive impact in new technology development and innovation. They also suggested to explore more about at the IEEE TRY Engineering programs and the Women in Engineering (WIE) initiatives to select their engineering career.

After the panel discussion the students were divided into four groups: (i) visit to Makerspace; (ii) the university campus tours; (iii) Hands-on-Activity; and (iv) the current electrical and computer engineering female undergraduate students' panel. The group was rotated. In the Makerspace the students were experienced the 3D Printing and other machines that the students use to make new things. As the part of the campus tour the students experienced a college campus. The hands-on activity was guided by Dr. Byron Chen, Director of Labs of ECE Department. The students were given the *Snap Circuits Green Energy* from Elenco Electronics and a multimeter to work on several circuits using solar energy and wind energy. They were excited to build their projects and wanted more time. The fourth group was with current female ECE students to "ask anything" in an informal environment.

During lunch time Mr. Steven Eck, Director of NJIT's admission office guided the high school seniors about the application process and declared that the application fee will be waived if they apply to ECE Department or any engineering program for their undergraduate program. An excellent breakfast and a hot lunch were provided to the students. Ms. Teri Bass and Ms. Ryoko Mathes of ECE Department of NJIT worked tirelessly from January 2023 to make the project a success. Around 15 ECE students worked as volunteers to help the students to have an excellent time.

The attendees were approximately of the distribution as follows: Entering Grade 9: 12%, Grade 10: 22%, Grade 11: 42%, Grade 12: 15%, and the remaining few were as young as entering Grades 7 and 8.

Following the program, a survey was made to receive feedback from the female high school and middle school students. More than 50% of the students who attended the program responded. Out of the responders we had 41.3% Asians, 43.9% African Americans and Latinos, 9.8% Whites and 5.0% others including American Indians. About 42 % strongly agreed and about 50% of the respondents agreed that they felt they know more about the field of Electrical and Computer engineering (ECE) after attending this event.

**Activities in region 10 – A report by Dr. Ajay Poddar:** IEEE Pune Section held several events including AP-S COPE and inter-societies activities, where Dr. Ajay Poddar, IEEE AP-S COPE Committee Co-Chair, interacted with undergrad and grad students, faculty, Young Professionals, Women in Engineering, Industry people, and local volunteers. The visit to Fergusson College Pune, and the Symbiosis Institute as part of IEEE inter-section actives under MoU between Pune and North Jersey Sections, turned out to be productive and impactful. Most of the students showed great interest in becoming IEEE Members. Thanks to Prof. G.S. Mani and his team, for organizing the events and interactive sessions with students and also for organizing Pune-North Jersey section joint events and a visit to TIFR (Tata Institute for Fundamental Research), for interaction and engagement with students and researchers as a part of AP-S COPE, YP and STEM activities. On July 12th IEEE Mumbai and Pune Section jointly organized the IEEE Life Fellow felicitation, which was also graced by the presence of IEEE President, Prof. Saifur Rehman. Many thanks also go to Dr. Surekha Deshmukh, Chair IEEE Pune Section for joint collaborative workshops and events. Pictures below show the various activities during Dr. Poddar's visit.
