**RE: Section Reassignment – Santa Monica Bay to South Bay Harbor Section**

Dear Member:

As a result of boundary reorganization, your Section assignment has recently changed. Until recently, you were a member of the Santa Monica Bay Section. Now, as a result of this reorganization and based on the preferred address on your IEEE membership record, you are now a member of the South Bay Harbor Section.

This change will make no difference in your membership status or service. You will continue to receive *IEEE Spectrum*, *The Institute*, your Society publications and subscriptions as before.

However, your new Section will be notified that you are now a member and you should begin to receive information from them about local IEEE activities. If the Section publishes a newsletter, you should begin to receive that newsletter in about 6 weeks.

If you would like more information about contacts within your new Section's leadership, or prefer to be affiliated with a Section adjacent to your new Section, please contact us at 732-562-5511 or email to [sec-chap-support@ieee.org](mailto:sec-chap-support@ieee.org).

Thank you for your continued membership in the IEEE.

Sincerely,

Tracy Hawkins, Manager

Dear Bruce:

The Santa Monica Bay Section has now formally adopted the Bylaws as required by the Headquarters Constitution.

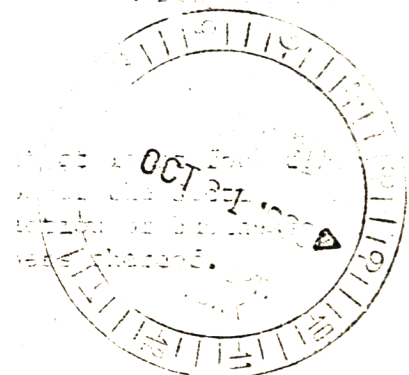

Since this was done partly by letter ballot to the officers, they did not give us a precise date. However, I do have in my files the regular Council recommended Bylaws, revised July 9, 1966, with one small exception which I send you herewith. Can we use the date of October 1, 1966 as the date of record for this? I am sure that Bob Segal, Chairman, would agree.

Thank you for forwarding these to New York.

Sincerely,

Ray Banks

Dear Mr. Richter:

I am very happy to approve the formation of the new Crescent Bay Subsection, as described in their petition.

There is certainly enough activity in the area encompassed by the new subsection, and I am sure that the members will enjoy having their own group.

Very truly yours,

Hi Lauren -

As the 2004 Chair of the IEEE Los Angeles Council, I was authorized by vote of the Council OpCom on June 19, 2004, to effect the transfer of any or all Chapters currently chartered to the Council into the individual Sections where they meet most regularly. I have discussed this opportunity with the ExCom of the Coastal Los Angeles Section, and received their concurrence to accept those chapters that meet in CLAS territory at the earliest opportunity.

Dear Peggy

Attached is a petition to start an Affinity group under the Coastal LA Section of the IEEE (made up of the combined former South Bay Harbor and Santa Monica Bay sections).

Because the procedures are not well understood by me, if anything else is required, please drop me a note.

Mary Eshaghian is the point of contact for the group. She is also the chair of the Coastal LA section, so she has asked me as secretary of the section to submit this form.

Sincerely

*Charles Jackson*

Hi Lauren -

As the 2004 Chair of the IEEE Los Angeles Council, I was authorized by vote of the Council OpCom on June 19, 2004, to effect the transfer of any or all Chapters currently chartered to the Council into the individual Sections where they meet most regularly. I have discussed this opportunity with the ExCom of the Coastal Los Angeles Section, and received their concurrence to accept those chapters that meet in CLAS territory at the earliest opportunity.

I have also spoken to the officers of the Microwave Theory and Techniques Chapter (MTT-17, Timothy Lee, Chair) and have obtained their concurrence to

transfer the MTT Chapter to Coastal LA Section.

Therefore, I hereby request that this MTT Chapter be transferred from the LA Council to Coastal LA Section, effective at the earliest opportunity.

You will receive concurrence in this request from the Chair of Coastal LA Section and the Chair of the MTT Chapter. The individual Sections in the LA Council have already voted their unanimous concurrence as part of the record of the June 19 Council meeting.

Don Mayer, Chair  
IEEE Los Angeles Council
