Dear Warren:

It is with real regret that I must make my last official act as a member of AEE Board one of opposition to the proposals presented, but I must continue to live with myself, if not with the majority.

My ballot on the slate of officers sent with your letter of July 27 and discussed by telephone yesterday with Clarence Linder is in the negative, and is enclosed herewith.

The slate has some good men - Dr Weber as President is absolutely top! But the slate is disappointing from the standpoint of the tremendous activity and accomplishments made and to be made by the T.O.D. To put Hendley Blackmon - tremendous man that he is - in the minority position he and his co-workers in TOD will be in is not good - in my view.

Mr. W. H. Chase, President  
Amer. Inst. of Elect. Engrs.  
Cleveland, Ohio.

Sincerely,

Harold Foote
